

# Bokai Liao

Katy, TX | [bokai0602@gmail.com](mailto:bokai0602@gmail.com) | (206)-334-5306

**Electrical Engineer** with hands-on internship experience contributing to the **design, testing, and troubleshooting of electrical systems** for **manufacturing equipment** and **prototyping NFC-integrated components**. Skilled in **PLC-based industrial control, CAD modeling**, with experience in Java, Python, and C++. Proven ability to collaborate with cross-functional teams to optimize component performance and ensure safety and efficiency.

## Education

|                                                                                               |                               |
|-----------------------------------------------------------------------------------------------|-------------------------------|
| <b>Texas A&amp;M University</b>                                                               | <i>August 2024 - May 2028</i> |
| <ul style="list-style-type: none"><li>B.S. Electrical Engineering</li><li>GPA: 3.24</li></ul> |                               |

## Work Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                             |
